## What is HARP?

This free program supports people with chronic illness and their carers to live well in the community and reduce admissions to hospital.

Your 'HARP' Care Coordinator will work with you, your doctor and the following services such as:

- Physiotherapy
- District Nursing Service
- Occupational Therapy
- Pharmacy
- Dietician
- Social Worker /Counselling /Psychology
- Other services or community supports as agreed by you

Team members will visit you in your home to talk about what support you need to live well.

## What can the program help with?

- Help you to meet your health needs and improve your wellbeing
- Learn how to recognise changes in your health and help you know what you need to do when you are unwell.
- Provide information on programs and treatment options available.
- Monitoring and support
- Improve communication between you, your doctor and other services
- Provide health information and education

You and your family will receive the best possible care and support to make sure you stay as healthy as possible.
